## Course Descriptions

This course is designed to develop students' abilities and skills in academic communication and debate. The topics of this course train the students on using sources for academic communication, putting knowledge into good use, and raising academic questions and answering questions in an academic way. The course also aims to teach students how to accept and respect differing opinions, and how to conduct academic arguments. In this course, students are directed to raise questions and analyze academic texts logically and critically, i.e., they are guided to conduct a critical analysis of what they read and are provided with the opportunity to practice and develop their skills by writing their reflections on the material studied and on their own learning. Moreover, the students will be assisted in this course with considering the problems of their country and making suggestions to solve problems relying on academic mechanism and methodology.
